Yassine W. Medjati

AI & Digital Transformation Leader

Hamburg, Germany | Open to relocation

hello@wyassine.com | +49 172 257 4807 | wyassine.com

PROFILE

I connect strategy, technology and people to turn AI and digital transformation into business progress. My experience spans aerospace engineering, data science, software delivery and enterprise change, combining technical understanding with program leadership, stakeholder alignment and adoption.

PROFESSIONAL EXPERIENCE

March 2022-present | Airbus Operations | Hamburg

AI & digital transformation program management

- Lead AI deployment and implementation across 20+ use cases in quality engineering.

- Designed, built and launched an automation and analytics pipeline to collect, assess and deliver digital quality-improvement initiatives.

- Contributed to management-level digitalization roadmaps covering AI, analytics and process automation.

- Built a community of digital ambassadors and established five collaboration platforms for a team of more than 10 members.

- Lead cross-functional work on quality-process governance and improvement initiatives.

August 2019-March 2022 | Airbus Operations | Hamburg

Digital transformation & data science

- Translated airframe engineering needs into data-driven use cases, including work on the Skywise platform.

- Led digital-product and process-improvement initiatives for complex fuselage engineering challenges.

- Developed requirements, technical assessments, proofs of concept and solution options.

- Coordinated with multidisciplinary teams, Airbus sites, engineering partners and suppliers internationally.

April 2018-August 2019 | Swisstraffic | Bern

Software engineering intern & consultant

- Implemented, supported and integrated software applications for client projects.

- Translated client needs into requirements and followed delivery for quality and timeliness.

- Developed MySQL and PostgreSQL databases and assessed the operational feasibility of proposed solutions.

LEADERSHIP

Create clarity.
Give people ownership.
Make progress visible.

Founder, Airbus Speakers Hamburg.

Creator and host, Airbus Young Voices podcast.

Speaker, AI Summit 2021.

Future Leader Program 2025.
Nominated for Airbus STEP 2024 and NextGen Aviation Leaders 2022-2024.

EDUCATION

Computer Science - Big Data

Master's degree
ISAE-ENSMA, France
2017-2018

Telecommunications

Master's degree
University of Tlemcen, Algeria
2012-2017

CERTIFICATIONS

Airbus AI Nanodegree
Certified ScrumMaster (CSM)
Cisco CCNA
A320 General Familiarization

LANGUAGES

Arabic - Native
English & French - Fluent
German - B1
